BME680 Environmental Sensor - DATASHEET

Manufacturer: Bosch Sensortec
Part Number: BME680
Category: Sensor / Gas+Humidity+Pressure+Temp
Document Revision: Rev 1.8
Language: en

Overview

The BME680 is an integrated environmental sensor developed for mobile and wearable applications. It combines gas, pressure, humidity, and temperature sensors in a single 3.0 × 3.0 × 0.93 mm³ LGA package. Gas sensor: MOx-based, detects VOCs (volatile organic compounds). Pressure range: 300-1100 hPa (±0.6 hPa accuracy). Humidity: 0-100% (±3% accuracy). Temperature: -40°C to +85°C (±1°C accuracy).

Key Specifications Summary

gas: VOC_MOx. pressure: 300-1100hPa. humidity: 0-100pct. temp: -40_85C. interface: I2C_SPI. size: 3x3mm.
