iCE40 UltraPlus Family Data Sheet - DATASHEET

Manufacturer: Lattice Semiconductor
Part Number: ICE40UP5K
Category: FPGA / Ultra-Low-Power FPGA
Document Revision: FPGA-DS-02008 v1.5
Language: en

Overview

The Lattice iCE40 UltraPlus ICE40UP5K is an ultra-low-power FPGA for mobile, wearable and IoT edge applications. It provides 5,280 LUTs, 1 Mbit single-port RAM, 120 Kbit block RAM and 8 DSP multiplier blocks. 1.2V core, standby current as low as 75 uA. Hardened I2C and SPI cores, one PLL. Package options: 48-pin QFN, 30-ball WLCSP.

Key Specifications Summary

logic_cells: 5280. bram: 120Kb. dsp: 8. io: 39. power_standby: 75uA. process: 40nm. spram: 128KB.
